History of Beef Wellington

A dish renowned for its luxury and elegance, Beef Wellington has a fascinating history interwoven with culinary traditions and notable historical figures.

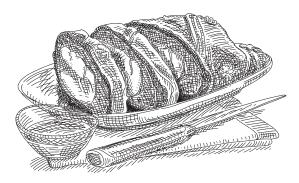

ORIGIN

The most popular theory links Beef Wellington to Arthur Wellesley, the first Duke of Wellington, who famously defeated Napoleon at the Battle of Waterloo in 1815. The dish is believed to have been named in his honour, possibly because its appearance resembled the highly polished military boots he wore in battle, known as 'Wellingtons'.

Some food historians propose that Beef Wellington is an adaptation of the traditional French dish 'filet de bœuf en croûte' (fillet of beef in pastry). The British may have embraced and renamed this dish during or after the Napoleonic Wars.
